LEAP, LAUGH, DANCE

- Founded to expand access to self-expression for children with limited creative avenues.
- Began with two students and grew into a cohort of ten; shy beginners became confident performers and collaborative team players.
- Applied years of training to translate complex movement into simple, learnable steps, blending Indian and Western forms, culminating in three public performances over 18 months.
- Managed choreography, logistics, costumes, and secured stage time on a shoestring budget
- Repeat invitations from initially hesitant organisers and feedback from parents have nurtured the program.

LITTLE PALMS SCHOOL

- Conducted an interactive Ballet awareness session for young children

TAKE A PAWS CONCERT

- Performed at the fundraising concert at Bombay International School for animal welfare
